Singapore, May 3, 2011 – Hiap Seng Engineering Ltd (“Hiap Seng” or the “Group”), a specialist integrated engineering group for the oil-and-gas, petrochemical and pharmaceutical industries, today announced that it has secured a contract from Lanxess Butyl Pte Ltd (“Lanxess”) for its new butyl rubber production facility on Jurong Island. Under this contract, Hiap Seng will provide piping and mechanical works for the project.

Hiap Seng’s works on the project have commenced and are expected to be completed in the financial year ending March 31, 2013. The contract value is based on measurement of works completed.

Barring any unforeseen circumstances, the contract is expected to have a positive impact on the Group’s financial performance for the financial years ending March 31, 2012 and 2013.
